IT DOESN'T GET ANY EASIER THAN THIS! HERE'S HOW YOUR SYSTEM WORKS:

There are three major components in your Star Choice system – the satellite dish, the receiver and the remote control.

THE ELLIPTICAL DISH

The first thing you may have noticed is the unique-shaped dish. It's oval, not round. This shape allows you to receive signals from two satellites, which enables Star Choice to bring you nearly 400 channels!

THE STAR CHOICE REMOTE

Every Star Choice system comes with a versatile remote that controls your Star Choice receiver, TV and other A/V equipment. Pages 4 and 5 have more information about your remote control and its features.

THE RECEIVERS

The Star Choice receiver is smaller than most VCRs and connects to your TV from the dish. It brings the signal from the dish into your home. All Star Choice receivers are built by Motorola®. All 4 receivers are dual satellite compatible and work with all remotes.

LACKING TOTAL CONTROL?

Here's what to do when your remote goes on strike.

Remotes are fabulous. With the press of a button you can change channels, browse through network offerings, mute the volume of commercials or perform other operations. But though easy to use, sometimes remotes seem to have a mind of their own. Here are some simple tips to try to put you back in control.

ARE YOU IN THE RIGHT MODE?

Make sure the correct mode is selected for the equipment you are trying to control. The remote needs to be in the "SAT" mode (press the "SAT" button) in order to change the channels on Star Choice.

ONCE YOU HAVE PROGRAMMED YOUR REMOTE CONTROL, FILL IN YOUR SPECIAL CODES ON THIS CHART, FOR EASY REFERENCE.

DID YOU KNOW?

Your remote control is programmed to operate your Star Choice system (SAT, TV, DVD or VCR) using special codes. Jot your codes down here in case you ever need to reprogram your remote. Don't know your special codes? Visit starchoice.com/remote for a quick guide.

CODES

SAT

VCR

DVD

CAN THE REMOTE INTERACT WITH THE INFRARED EYE ON YOUR EQUIPMENT?

Be sure there is a clear path between the remote eye and the equipment being controlled. In addition, the infrared eye on the remote needs to be clean. Check to make sure it's free of any dirt, grease or the remnants of your toddler's peanut butter sandwich.

ARE THE BATTERIES WORKING?

If you press any mode button and it doesn't light up, check to make sure the batteries are installed properly. If you can't recall when you changed them last, try replacing them.

IS THE REMOTE IN BATTERY-SAVING MODE?

When a button is pressed for longer than three minutes, the remote shuts down to save battery power. Press the "SAT" button to reactivate.

IS IT ONLY THE RECEIVER THAT IS NOT RESPONDING?

Try this simple cure – unplug the receiver for two minutes or longer, then plug it back in. This will cause its internal computer to reset. Also, check for a timer. **If it's on, the receiver won't let you change channels.**

IS THE REMOTE PROGRAMMED CORRECTLY?

Try reprogramming it. Start with the receiver and work your way through each component. You'll find information on reprogramming your remote – and other related remote topics – at the Star Choice Web site: starchoice.com/remote.

STILL NO GO?

TV BROWSING MADE SIMPLE

A CHANNEL SURFER'S DREAM COME TRUE.

When you hit the "Browse" button on your remote, a banner appears at the bottom of your screen that provides one channel listing at a time. You can use the arrows on your remote control to scroll through different channels and different times.

WHAT'S THIS SHOW ABOUT?

By touching the "Info" button on your remote control, you can access information such as the name, a brief description and duration of just about every program.

YOUR OWN CRYSTAL BALL.

Plan what you want to watch, even a few days in advance, with the Look-Ahead Guide. Just scroll forward in the IPG using the navigation arrows or by pressing "Future." To use the Look-Ahead Guide, press the "Guide" key and then press the "Future" key. (Not available with HD receivers.)

MY FAVOURITE CHANNELS ARE ...

You can program up to four lists of your favourite channels, customizing the IPG to suit the way you or your family members wish to channel-surf. To set your Favourites, display the Options menu and select option 2, Set Guide & Favourites. Select option 2 again and the Favourite Channels menu appears.

MY SPOUSE LOVES SPORTS, BUT I LOVE REALITY TV.

You can search for programming based on your interests. Search by Favourites, Movies, News/Education, Sports, Music, Network Series and Pay Per View to quickly find the programs you want to watch. To search by interest, select the "Interests" key on the remote control and the Interests menu will appear.

DID YOU KNOW? In addition to the onscreen guide, many of our customers want a printed TV guide that they can use to plan their viewing month. For them, Star Choice offers the Star Choice Channel Guide Magazine. Find out more about it on page 10.

Your IPG lists 6 networks and 1 1/2 hours of programming.

YOUR ONSCREEN PROGRAM GUIDE

Your onscreen programming guide (known as the Interactive Programming Guide or IPG) can be easily accessed with the "Guide" button on your remote. The IPG features information such as channel number and name, program name, start time and duration. You can scroll through the channels and options using the arrow buttons on your remote. Once you've found the program you want to watch, just highlight it, press "Enter," and your receiver takes you there instantly. The programs are even colour-coded for easy channel-surfing: pink for movies, green for sports and purple for Pay Per View.

What could be easier?

IT'S THE IPG, ONLY SMALLER!

Star Choice features a smaller version of the IPG called the Mini-Guide. Just press the "Guide" button twice to scroll through the menu using only a portion of the screen.

Your Mini-Guide lists 2 networks and 1 1/2 hours of programming.

LOCK OUT YOUR KIDS FOR GOOD.

Channel Locking allows you to use passwords to lock out certain channels so you decide what your children can and cannot watch. You can also add or remove channels to suit your viewing interests. To use this feature, display the Options menu and select option 3, Set Parental Control. Choose the Set Password option and follow the onscreen prompts to set a password.

Return to the Parental Control menu under "Options" and select option 2, Set Channel Locks.

AN ALARM CLOCK FOR YOUR TV.

By looking ahead with the IPG, you'll never forget to watch a game or movie again. You can **pre-program your receiver** to tune in to your favourite shows. You can actually preset your receiver for up to 25 shows! First, highlight a future program when in your onscreen guide for which you'd like to set a timer. Then, press the "Info" or "Enter" key. The "Confirm Timer" menu will appear.

DID YOU KNOW YOUR STAR CHOICE RECEIVER IS A TIME MACHINE?
With Time-Shifting, you can watch your favourite shows from five different time zones.
You'll never miss another episode!

THIS IS MY FIRST BILL. WHAT'S MY COST?

Your billing cycle was established on the day your service was activated. From that date you are billed for your service once a month, a month in advance. That means your first bill reflects charges for a two-month period. If you add or change a service, you'll see a partial month charge to catch your service up to your regular billing cycle. Changes can take up to 15 days to appear on your bill.

DETAIL PAGES

A more detailed breakdown of your charges follows your summary. For example, you'll find more information on specific Pay Per View purchases, the Premium Services you subscribe to or important reminders that may affect your account status. These informative details should help answer questions concerning your bill. Remember, if you're concerned about keeping track of your payment due dates, consider paying your bill automatically through Pre-Authorized Payment each month. This keeps your account current and saves postage. For more on automatic payment options, visit starchoice.com/selfserve.

WHAT WAYS CAN I PAY MY BILL?

You can send us a check with your monthly statement, pay online or have Pre-Authorized Payments charged to your credit card. Payment received five days prior to the billing date will appear on your next statement. You can pay online, check your account status or sign up for Pre-Authorized Payments by registering at www.starchoice.com/selfserve.

USING OUR PRE-AUTHORIZED PAYMENT PLAN IS THE EASIEST WAY TO PAY.

Your monthly Star Choice bill is debited from your bank account every month, saving you the trouble of writing cheques and mailing payments. We also have an option that allows you to set up Pre-Authorized Payment on major credit cards.

If you don't have access to the Web you can call our automated phone system at **1 888 554-STAR** to check the status of your bill, make changes to your account, and sign up for Pre-Authorized Payment.

4. Highlight the movie you want to watch with your remote. (Movie trailers are on Channels 200 & 600.)

2. Call 1 866 STAR-PPV (782-7778).
3. Enter your home phone number.
4. Enter the channel number and what time you would like the movie to start.

Viewers Choice™ and related designs are trademarks of Viewers Choice™ Canada Inc. Ensure your receiver is always connected to a working phone line. Only Viewers Choice™ Pay Per View Channels and Playboy have general and content rating control.

ALL DAY TICKET

Ever watch a great Pay Per View movie and think, "I'd love to see that again"? Well, now you can - with Viewers Choice Pay Per View All Day Ticket. FREQUENTLY ASKED QUESTIONS

WHAT IS INTERACTIVE VOICE RESPONSE (IVR)?

Interactive Voice Response is a state-of-the-art phone system that allows you to check the status of your bill, make changes to your account, and even order movies. Call **1 888 554-STAR** to access it.

WHAT ARE CRTC RESTRICTIONS?

The Canadian Radio-television and Telecommunications Commission places limits on the choices we can offer to our customers. We work hard to provide programming that adheres to CRTC regulations while offering you maximum programming flexibility.

HOW DO SPORT BLACKOUTS AFFECT ME?

Blackout rules are local or regional viewing restrictions set up by various sports leagues and television networks. As a distributor, Star Choice has no control over these blackouts.

I'M GOING TO MY COTTAGE; HOW CAN I ACCESS STAR CHOICE?

Star Choice receivers are portable. All you need to do to enjoy Star Choice at your cottage or favourite getaway spot is to call Star Choice to see if you qualify for a free basic dish installation in your cottage area. Then just bring the receiver with you and hook it up at the new location or purchase a new receiver to stay at your cottage.

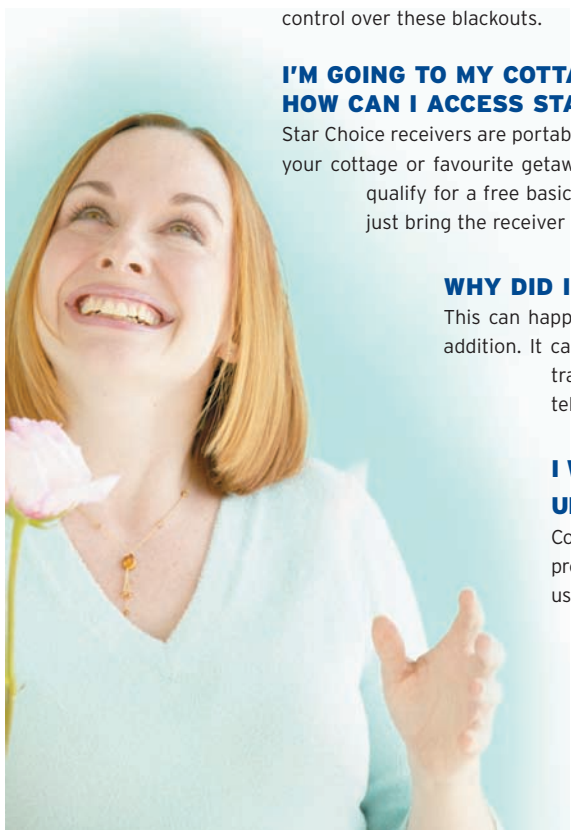

WHY DID I LOSE MY SIGNAL?

This can happen if the line-of-sight from your dish to the satellite is blocked. It could be a tree or your neighbour's addition. It can also happen temporarily when severe weather systems are in the line-of-sight and impair the signal transmission. You can get weather-outage updates by calling us at 1 888 554-STAR and using our automated telephone system. If the signal is out in your area, you'll be informed when service is expected to resume.

I WILL BE MOVING IN A COUPLE OF WEEKS. HOW DO I GET STAR CHOICE HOOKED UP AT MY NEW HOME?

Contact Star Choice 3 weeks prior to your moving date and we'll ensure you don't miss a day of great programming. All you have to do is leave your old dish behind and we'll install a new dish before you move in. Call us at **1 866 932-MOVE** or visit starchoice.com/moving to schedule a date and time that is convenient with you.

DID YOU KNOW? Star Choice has 2 channels devoted to previews of the hot new movies and events available this month on Viewers Choice Pay Per View. Go to Channels 200 & 600 for previews 24 hours a day.

WHAT DO I DO IF MY ONSCREEN PROGRAM GUIDE (IPG) READS “NO INFO”?

If you receive this message, the IPG may have temporarily been interrupted and is reloading itself. If the problem persists longer than 45 minutes, try unplugging your power source and plugging it back in. You can also try unplugging your receiver for one minute. The screen should then read “GUIDE INFORMATION IS BEING LOADED.” Don’t change channels while this message appears. Allow a maximum of half an hour, as several days of information must be loaded. If your screen doesn’t read “GUIDE INFORMATION IS BEING LOADED,” you can still watch your favourite shows, but you won’t be able to access information from the IPG. The problem should be temporary.

WHAT DO I DO IF I HAVE A BLACK OR BLUE SCREEN ON MY TV?

Here are some easy steps to try to solve the problem:

1. Make sure the receiver is turned on. Just give the power button on the receiver a push (you’d be surprised!).
2. If you’re using a VCR, try turning it on/off to see if that fixes things.
3. Go up to your TV and try changing the channels. Try Channels 3 or 4 and see if there’s a picture. You should also see another button on your TV that says TV/Video, Input, Line or Mode. Try giving that button a press; it might take several attempts.

If the black or blue screen is still present, give us a call at **1 888 554-STAR** – we’re always glad to help.
